

REVEL

Simply Appealing.

Visioneering's Revel caters to modern spaces by providing a clean design and architectural appeal. Revel's two angled lenses and sloped housing provide optimal illumination. This stylish luminaire features advanced controls and lighting technology options that provide tailored function for a wide range of applications.

Revel's contemporary design transforms typical ceiling grids in office areas, retail stores, classrooms, hospitals, fitness centers, nursing homes, and hospitality areas into architectural friendly spaces.

Features:

- 1x4, 2x2, 2x4, and 20x60 configurations
- Standard low voltage 1% dimming (0-10V)
- Room-side access for servicing
- Up to 126 lm/w

Featured Options:

- Intellect occupancy/daylight sensor
- Tunable white
- BIOS Circadian lighting
- 90 CRI

Suitable Applications:

- Office Areas
- Retail Stores
- Classrooms
- Hospitals
- Fitness Centers
- Nursing Homes
- Hospitality and many more

The Revel is an ideal solution for retrofitting non-standard ceiling grids. The 20x60 option is available with standard filler plates or with a full illumination option for more re-fined spaces.
